INTERNETX ELIGIBILITY AND ACCEPTABLE USE POLICY

InterNetX Corp. ("InterNetX") has established and enforced eligibility, registration and use policies with respect to the .SRL TLD as follows:

1. .SRL ELIGIBILITY POLICY ("ELIGIBILITY POLICY")

Only companies that are registered as SRL qualify to be a Registrant of an .SRL domain name. Such registration must be granted by a governmental body, or an organization authorized by a governmental body to issue such registration.

If at any time during the term of registration of a Registered Name a Registrant shall no longer meet the requirements of the Eligibility Policy, then, in addition to any other rights of InterNetX existing under the Registry Registrar Agreement ("RRA") between InterNetX and any applicable Registrar or otherwise, InterNetX reserves the right to deny or cancel the registration, renewal, or transfer of any Registered Name, or to place any Registered Name on registry lock, hold, or similar status, with respect to any such Registered Name that InterNetX, upon reasonable belief formed after reasonable investigation, deems to be registered to a Registrant that is not in compliance with the Eligibility Policy.

2. .SRL ACCEPTABLE USE POLICY ("AUP"):

Registrants of Registered Names in the .SRL Registry are responsible to ensure that such Registered Names are at all times registered and used in compliance with all applicable national, federal, regional, state and local laws, ordinances and regulations ("Applicable Laws"), including, without limitation, applicable laws related to company, both online and otherwise, intellectual property and consumer protection.

In addition to any other rights of InterNetX existing under the RRA between InterNetX and any applicable Registrar or otherwise, InterNetX reserves the right to deny or cancel the registration, renewal, or transfer of any Registered Name, or to place any Registered Name on registry lock, hold, or similar status, with respect to any such Registered Name that InterNetX, upon reasonable belief formed after reasonable investigation, deems to be registered or used in a manner that constitutes a violation of the .SRL Acceptable Use Policy.

Further, Registrants in violation of any Applicable Laws may be subject to prosecution or other enforcement of such Applicable Laws by the appropriate authorities.

3. ENFORCEMENT OF ELIGIBILITY POLICY AND AUP

A. Registrants of .SRL are subject to the PIC Dispute Resolution Policy ("PICDRP") established by ICANN.

B. InterNetX has established an ".SRL Non-Compliance Contact" whereby representatives of governments and law enforcement agencies are able to contact InterNetX on a 24/7/365 basis to report alleged instances of non-compliance with the .SRL Eligibility Policy or the AUP. InterNetX will within twenty-four hours of a notification to such contact begin an investigation into the allegations. In the event non-compliance is determined by InterNetX, it shall take such actions as it deems appropriate as permitted under the Eligibility Policy or the AUP, as applicable.
